## OBJECTIVES

Through excellent communication, willingness to learn and grow, and an attention to detail, I believe I can make an immediate impact in a professional development role.

## EDUCATION

Colorado State University **2017** Bachelors  
in Sociology

## EXPERIENCE INYO COUNTY JUVENILE PROBATION | BISHOP, CA **Rehabilitation Specialist** March 2019 – Present

*Worked alongside a team to provide services to the youth of Inyo County.*

- Successfully ran intervention programs for youth both in school and after school.
- Conducted dozens of group-oriented programs including Power source, MRT, Sport programs, and out of county outings.
- Continued to work and improve department processes such as transportations to court and juvenile halls, relationships with administration of school districts, and partnerships with other agencies.

## Freelance Programming | Bishop, CA **Freelance** July 2020 – Present

Self-taught programmer primarily focused on TypeScript. Worked on a variety of personal projects such as:

- Multiple Discord bots for use in discord communities, utilizing NodeJS and DiscordJS primarily.
- A handful of front-end web applications utilizing TypeScript and React. These frontend web projects include things like:
  - A dashboard of services that allowed users to search for movie reviews, jokes, book reviews, and weather.

- A discord Wikipedia website that allows users to browse discords and get a preview of what that discord, and its community, might be like.
- Front end developer intern challenge provided by Shopify that utilized Open AI technology.
- Code review and mentorship to maintain, understand, and develop best practices, readability, and cohesion when writing code.
- Experience in hosting projects for production through platforms such as Heroku and Railway.
- Most projects required me to develop both the front-end and backend.

## SKILLS

- TypeScript
- React / CRA / NextJS
- HTML
- CSS / Tailwind CSS
- NodeJS / Express servers
- PostgreSQL / Prisma
- MongoDB / Mongoose
